

This question paper contains 3 printed pages.

Roll No.

B.C.A. (Part-III)

LIN. & SHE. PRO.

306-C

B.C.A. (Part-III) Examination, 2021

(Faculty of Science)

(Three-Year Scheme of 10+2+3 Pattern)

LINUX AND SHELL PROGRAMMING

Time Allowed : 3 Hours

Maximum Marks : 100

Answer of all the questions (short answer as well as descriptive) are to be given in the main answer-book only. Answers of short answer type questions must be given in sequential order. Similarly all the parts of one question of descriptive part should be answered at one place in the answer-book. One complete question should not be answered at different places in the answer-book.

Write your roll number on question paper before start writing answers of questions.

Question paper consists of three Parts.

All three parts are compulsory.

- PART-I :** (Very Short Answer) consists 10 questions of 2 marks each. Maximum limit for each question is upto 40 words.
- PART-II :** (Short Answer) consists 5 questions of 4 marks each. Maximum limit for each question is upto 80 words.
- PART-III :** (Long Answer) consists 5 questions of 12 marks each with internal choice.

PART-I

1. Attempt all questions :
 - (a) What is Linux?
 - (b) Explain booting in brief.
